REVOLUTION RACEWAY

- TREMENDOUS MAN HOURS AND MANY THOUSAND OF DOLLARS WENT INTO THE NEW REVOLUTION RACEWAY

- LETS TAKE A QUICK VIEW OF WHERE WE STARTED

The first view of the front

Store? Note the ceiling!

Dirt track? Here?

A view of the East Room, note no windows!

Pit areas? Where?

This was going to be the road course room, now parts and slot car area

Electrical panels, did Ben Franklin do this?

Ok, lets start the tear out!

We found windows, and so much more.

Just how many hours just in cleaning up the floor.

Will it ever be ready?

Getting close now, or so we thought!

West room is ready for racing.

- To bad most didn’t think it was big enough, so plans changed and this room was allocated for use by the slot car track and a new R/C parts room. This track is the same size as we ran on at the Eagles Club for 10+ years.

Remember last years season end? That ceiling is still there

We will miss Mike, but note the condition of the slot car track in the background.

Where’s the parts?

Mini Z race track

Once we found the windows, also found they had to be replaced, these are the new units

East room, ready for racing!

By this time, 2 years had passed after Bob and I first looked at the building. Six months has past with work in progress. Two rooms are “ready”, or so we thought. The work in the West room was just beginning.

The dirt track is open, but note the walls not quite done in the background, work continues

The first drivers!

With the race rooms under way, the store comes around.

Two months on restoring the ceiling, new walls and all new lighting really

We have parts!!!, but where's the rest of the shelving?

Slot car racing begins!

Prepping for the move, nothing could be left behind.

- We had 35 volunteers to assist the move, plus almost all of our staff.
- We started the tear out on a Saturday and finished on a Monday. We could have opened that day except for a phone glitch.
- Thanks to all who helped.

After only a few days, still more shelving to buy and install, plus hang so many

Fresh meat for the pizza place next door (see why we go to Red's)

One of the last season Oval races.

And slots are going strong!

More shelving, more organized.

Getting settled now.

Wall still needs paint, but signs are going up.

From where we started, to where we are.

We thank the patrons of Hobbytown and Revolution Raceway for all their help and support.

Here’s to a great future of friends and the best race facility/Hobby shop in Wisconsin.

From HVF Racing Team to all of you------

THANK YOU!!

And a special thanks to
Bob Mazza
Ann Wegner
Bob Giese
Lee Dammann
And all who put up with me!
Bill of HVF RacingTeam
